Quality  
Checkers

By us - for us

Jupiter is a social enterprise, that checks how well services are doing their job in Cumbria the world and beyond...

[www.jupiterquality.co.uk](http://www.jupiterquality.co.uk)

Jupiter Quality Limited (Jupiter)  
is an Industrial and Provident Society  
run by people with learning disabilities  
supported to do this role by paid staff  
working for service organisations.

There has never been a more important  
time to make sure the support services  
provided to people who need them are  
of the very highest quality possible.

Whether you are a commissioner,  
service provider, regulator, family member  
or have some other role in people's lives  
- Jupiter has something to offer you.

Jupiter is very different from traditional ways  
of measuring quality because its work starts  
and ends with the experiences life of people  
using services themselves. Jupiter has  
developed a tool that looks at how people  
are living in the four priority areas of health,  
housing, activity and personalisation.

Please contact us for an informal chat  
to see how we might be able to help you.
